Please note: Before 2011 we divided our list of referees into two: 'Non-editorial internal referees', who were referees who were contributors to our Group at the time they commented on draft protocols and reviews submitted for editorial approval but did not hold an editorial role with our Group, and 'External referees', who were referees who were not contributors to our Group at the time they commented on drafts submitted for editorial approval. We no longer make this distinction.

Non-editorial internal referee
